## SPECIAL TO WOMEN

The most economical, cleansing and  
germicidal of all antiseptics is

**Paxtine**

A soluble Antiseptic Powder to  
be dissolved in water as needed.

As a medicinal antiseptic for douches  
in treating catarrh, inflammation or  
ulceration of nose, throat, and that  
caused by feminine ills it has no equal.  
For ten years the Lydia E. Pinkham  
Medicine Co. has recommended Paxtine  
in their private correspondence with  
women, which proves its superiority.  
Women who have been cured say  
it is "worth its weight in gold." At  
druggists. 50c. large box, or by mail.

## RAT-INFESTED ENGLISH CITY

Sheffield Is Moved to Seek Relief From  
a Veritable Plague of  
Rodents.

Sheffield, England, is crying aloud  
for help from a pest of rats. The  
mail of the United States through an  
official report on the situation made  
by Mr. Luther J. Parr, United  
States deputy consul, who calls upon  
"American rat exterminators" to  
show what they can do in the shape  
of aid. He says, according to the  
New York Evening Telegram:

"An opportunity will shortly occur  
in Sheffield to demonstrate the value  
of American rat exterminators. What  
is known as the killing shambles and  
the fish and meat market, located  
right in the center of the city, are  
to be pulled down in accordance with  
the new town-planning scheme of the  
city authorities."

"When this does occur it is recog-  
nized by the public that the home of  
millions of rats will be destroyed  
and articles and letters appearing in  
the local newspapers recently urged  
the corporation to do something to  
prevent the migration of this vermin."

"The steel works and large stores  
in this city are very largely infested  
with rats, and I understand many at-  
tempts have been made to exterminate  
them. In the works, however,  
very little damage is done by rats,  
and it is the rule to occasionally em-  
ploy a professional rat catcher, who  
catches about 100 rats a night, and  
is paid £1 (\$4.87) for a night's work."

"Such a profession is no doubt in-  
fluenced by the fact that there is a  
ready sale to sporting men for the  
rats caught, for training their dogs."

## A LOOK AHEAD

"Why, what's the matter, child?"  
"Boo—booooo! I'm skeered that  
when I grow up I may marry a read-  
headed fellow, and I hate red hair!"

## ELECTRICAL VACUUM WASHER.

An electrically operated washing  
machine has been developed which  
cleanses clothes by forcing water  
through them instead of rubbing  
them on a corrugated surface. A  
continuous flow of water is main-  
tained through the fabrics by creat-  
ing an air pressure and a vacuum on  
opposite sides of the mass of clothes  
being washed. The washer is de-  
signed to be attached to twin station-  
ary tubs of any size or make. The  
machine can wash, wring or rinse si-  
multaneously or separately as de-  
sired. All parts of this washer are  
accessible, easily removable, and are  
also interchangeable. All the rapid-  
moving parts are incased in oil. The  
machine is operated by a small motor  
of the inclosed type. It is equipped  
with a ball-bearing wringer with in-  
closed gears, reversible waterboard  
and quick-safety-release lever.—Elec-  
trical World.

## EXCEPTIONS.

He (assertively)—What this world  
needs as its workers are men of stay-  
ing qualities.

She (wearily)—Yes, maybe, as  
workers, but not as callers.

## WHY NOT?

"Our laundress has no sense of the  
fitness of things."

"What's she doing?"

"Pressing my glad rags with a sad  
iron."

## WELL MEANT.

"What is your alma mater, Mr.  
Nurich?"

"Well, if you insist, I'll take a ci-  
gar."—Buffalo Express.

## PENALTY FOR TALKING.

Bill—What a large mouth his wife  
has!

Jill—Yes, hot air expands things,  
you know.

THE THRICE-A-WEEK EDITION  
OF THE NEW YORK WORLD

Practically a Daily at the Price  
of a Weekly. No other News-  
paper in the world gives so  
much at so low a price.

This is a time of great events, and  
you will want the news accurately  
and promptly. All the countries of  
the world steadily draw closer to-  
gether, and the telegraph wires  
bring the happenings of every one.  
No other newspaper has a service  
equal to that of The World and it  
relates everything fully and prompt-  
ly.

The World long since established a  
record for impartiality, and any  
body can afford its Thrice-a-Week  
edition, which comes every other  
day in the week, except Sunday. It  
will be of particular value to you  
now. The Thrice-a-Week World al-  
so abounds in other strong features,  
serial stories, humor, markets, car-  
toons; in fact, everything that it to  
be found in a first class daily.

THE THRICE-A-WEEK! WORLD's  
regular subscription price is only  
\$1.00 per year, and this pays for  
156 papers. We offer this unequalled  
newspaper and Hopkinsville Ken-  
tuckian together for one year for  
\$2.65.

The regular subscription price of  
the two papers is \$3.00.

## WILL USE LARGEST TURBINES

Rapid Transit Company of New York  
Is Installing Record Current-Pro-  
ducing Engines.

The largest turbines in the world  
are now being built by the Westing-  
house company for the power station of  
the Interurban Rapid Transit com-  
pany, East River and Seventy-fourth  
street, New York. They will supply  
sufficient electric current to operate  
135 fully loaded ten-car trains accom-  
modating 135,000 people.

Each turbine—there are three—will  
be directly connected to a dynamo  
which will deliver 30,000 kilowatts, or  
about 41,000 horse-power, and at full  
overload each machine can deliver  
36,000 kilowatts, or practically 50,000  
horse-power, for a short period of  
time.

The amount of steam used and the  
enormous amount of cooling water re-  
quired for the condensers afford fig-  
ures that are positively astonishing to  
the layman. Each unit will use  
about 350,000 pounds of steam per  
hour, and to condense this steam so  
that all the benefits of a vacuum may  
be obtained in connection with the  
low pressure unit each turbine must  
be provided with a condenser contain-  
ing 50,000 square feet of cooling sur-  
face. To insure this the condenser  
will contain 36 miles of brass tubing  
one inch in diameter. The necessary  
amount of cold water for circulation  
through the tubes will be drawn from  
the East river, and through each con-  
denser there will be passed every  
hour 4,500,000 gallons of water. To  
pump this amount of water through  
the condensers for the eight units  
which will be ultimately installed calls  
for a tunnel twelve feet four inches  
wide and twelve feet four inches in  
height.

## FISH HOOK RECOVERS BODY

Passengers From Passing Train Drag  
River After Boy Is Knocked  
Off Bridge.

Using the boy's own fishing rod in  
grappling for his body, passengers on  
a Susquehanna and Western train that  
had knocked Paul Colombo from a  
bridge near Babbitt, N. J., into the  
river, succeeded in hooking his coat  
and dragging the body to the surface.  
The lad, who lived at Twenty-third  
and Palisade avenue, West New York,  
was fishing on the edge of the railroad  
bridge with John Eichlar, when the  
train due at Hackensack at 12:56 came  
along.

The Eichlar boy just managed to es-  
cape injury, the pilot of the engine  
grazing his heel. The Colombo boy  
was struck on the side of the head  
as he tried to swing away from the  
rail. Engineer Vrooman saw the boy  
fall into the river, stopped the train,  
and the passengers hurried to the  
scene. Several boys who were swim-  
ming near by dived time and again,  
but without success.

Then the passengers took turns with  
young Colombo's fishing rod, and final-  
ly the hook caught in the lad's coat.  
The body was dragged to the bank and  
taken on the train to Hackensack.

## Impressed the Child.

Representative John C. Floyd of Ar-  
kansas is one of the mildest-mannered  
trust busters that ever set foot in the  
house judiciary room, but he has a  
voice like the roaring bull of Bashan,  
and when his voice, gestures and shak-  
ing, shaggy mane all get into action at  
once the sound of Niagara is but a  
feeble whistle by comparison.

A child sitting in front of Floyd,  
when in action, must get the impres-  
sion he is watching Venus blow off  
a couple of million tons of lava. And  
it was a child who sat through an ad-  
dress of Floyd's the other day. The  
Arkansas trust buster was delivering  
a little talk in a church one evening,  
and in the well-known words of the  
amateur reporter, "he held the audi-  
ence spellbound."

After it was all over the little child  
was led, amazed and blinking, out  
into the starlight. He grasped his  
mother's hand warmly, and asked in a  
frightened whisper:

"Mamma, was that the Lord talking  
in church?"

## Disaster of a Century Ago.

Several lives were lost and much  
property destroyed by an explosion of  
gunpowder which occurred at Wool-  
wich 100 years ago. Woolwich is the  
most ancient military and naval ar-  
senal in England. In its dockyard men-  
of-war were built as long ago as the  
beginning of the sixteenth century.  
The royal arsenal contains a factory  
for the making of shells and car-  
tridges and a mammoth foundry for  
casting armor and ordnance, in addi-  
tion to vast magazines of great guns,  
powder and other warlike stores. The  
Royal Military academy, where offi-  
cers are trained for the British army,  
also is a part of the institution. Dur-  
ing the centuries of its existence the  
arsenal has been the scene of many  
disastrous fires and fatal explosions.  
One of the most recent of the explo-  
sions occurred in 1903 and resulted in  
the death or serious injury of more  
than thirty persons.

## Long Island Farmers Organize.

Extra Tuttle is a Long Island farmer.  
He followed to market a bushel of  
beans, which brought him thirty cents  
a bushel, and found that the consumer  
paid \$1.50 for them. The Long Island  
farmers have decided to maintain a  
bureau of markets for the purpose of  
getting some, at least, of this differ-  
ence between \$1.50 and 30 cents. Extra  
Tuttle is at the head of the move-

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Pare-  
goric, Drops and Soothing Syrups. It is pleasant. It  
contains neither Opium, Morphine nor other Narcotic  
substance. Its age is its guarantee. It destroys Worms  
and allays Feverishness. For more than thirty years it  
has been in constant use for the relief of Constipation,  
Flatulency, Wind Colic, all Teething Troubles and  
Diarrhoea. It regulates the Stomach and Bowels,  
assimilates the Food, giving healthy and natural sleep.

## Home-Made Ointment.

The following is a recipe for a sim-  
ple home-made ointment, which is ex-  
cellent for applying to cuts and  
bruises: One teaspoonful each of olive  
oil, turpentine, spirits of camphor and  
coal oil. Of course, any amount de-  
sired may be made, but the proportion  
must be as given here.

## Shadows.

"Could you sing that song about the  
twilight when the flickering shadows  
softly come and go?" said the sen-  
sitive youth. "Sir!" exclaimed the  
lady at the piano. "I don't approve  
either of the current fashions in  
gowns or of the promiscuous refer-  
ences to them."
